

## JUSTINE TJALLINKS

### *Past Present*

Justine Tjallinks is a rapidly rising photographer, who uses less conventional models to capture scenes that are often other-worldly and full of mystique. With a strong use of tonal palettes and colour references, this book showcases her very unique style.

Justine combines the 'old' and the 'new' to create images that have a sense of nostalgia whilst the content and subjects are often firmly fixed in present day sensibilities. Taking inspiration from Dutch master painters for their use of light and colour, this is juxtaposed with remarkable, contemporary faces and figures seen in modern clothing designs. This aesthetic combination means that Justine's reputation and work is growing quickly.

Owing to this photographer's growing success, her work has been recently taken on board by the Kahmann Gallery, and they plan to showcase her work in numerous fairs and art installations worldwide over the upcoming years.
